OUR HISTORY

Sino Concept opens his first and main office in Qingdao (Shandong, China) and his headquarter in Hong-Kong

2009

2010

Sino Concept opens its first factory in order to control the manufacturing of its steel products

Further to his development in the Street Furniture industry, Sino Concept decides to open its second steel factory

2011

2013

Sino Concept wants to develop its sales in Germany and opens its first sales office in Europe

2015 is the main turning point for Sino Concept, with the opening of a new plant, 100% dedicated to rubber products

2015

2019

To improve its presence in Europe, Sino Concept opens an office in France and moves its headquarter to the UAE

Sino Concept continues its developement in Europe with the opening of its Nordic branch in Finland

2020

2021

To increase its reactivity, Sino Concept has built a warehouse to continuously keep in stock his best sellers...

To be continued...

Why...

Sino Concept has been established to reach one goal: Offer good products, services and prices to our clients all over the world.

How...

From the very beginning, nothing has been easy... Félix had to be persistent, disciplined and surrounded by good people...

When...

In 2009, when Félix BIZOUARD understands that if he wants to reach his goal, he will have to start from nothing.

Who...

Years after years, Félix succeeded in being surrounded by people sharing his idea of business, and also his madness.

Steel and Casting

- Manufacturing processes: Welding, stamping, bending, casting.
- Material: Steel, stainless steel and cast iron.
- Bestsellers: Pedestrian and safety barriers, bollards, dustbins, cycle racks, etc.
